**Loans and Advances decreased** (%) quarter over quarter and year over year due to a tightening of credit standards and a decrease in credit demand attributed to the impact of Hurricane Irma in Q3 2017.

**Investments decreased** (%) quarter over quarter and year over year are attributed to the maturity of funds and the transfer of funds to finance pending commitments.

**Total Other Assets decreased (%)** quarter over quarter due to payment of accrued interest for loans and fluctuations in balances held with inter-company accounts.

Long Term Debt decreased (%) quarter over quarter and year over year due to re-payment of commitments and fluctuations in balances held with inter-company accounts.

Accrued Liabilities decreased (%) quarter over quarter and year over year due to a decline in vendor activity, maturity dates of certificate of deposits and other interest bearing accounts (that matured during the quarter) and the rates of interest paid.

Other Liabilities decreased (%) quarter over quarter and year over year due to the fluctuation of balances held on intercompany accounts.

Loss Reserves decreased (%) quarter over quarter due to net charge-offs and the decrease in credit demand. When compared to the same reporting period in the prior year, this category increased year over year due to the transition of some banks to the accounting IFRS 9 standards, which requires banks to recognize expected credit loss (ECL) at all times and to update the amount of ECL recognized at each reporting date to reflect changes in an asset's credit risk (immediate provision to be marked against a bank's capital for all loan facilities).

Deposits consistently remain above Loans and Advances. Deposits increased quarter over quarter and year over year due to savings and continued disbursement of insurance payout checks related to damages sustained territory wide from the Q3 2017 hurricanes. Ongoing negotiations between insurance providers and customers led to late disbursement of checks. Further, the demand for building material was greater than the market could supply which resulted in moderate movement of funds from deposit accounts.
